Products

BACKLESS BENCH

Cast iron painted base, with certified stained wood seat.

Possible association with planter.

Height : 440 mm (± 17 po)
Lenght : 1800 mm (± 71 po)
Width : 365 mm (± 14 po)

BENCH

Metallic cast iron painted base, with certified stained wood seat.

Possible association with planter.

Seat height : 440 mm (± 17 po)
Height : 870 mm (± 34 po)
Lenght : 1800 mm (± 71 po)

LEAN BAR

Metallic cast iron painted base, with certified stained wood seat.

Possible association with planter.

Height : 610 mm (± 24 po)
Lenght : 1200 mm (± 47 po)
Width : 185 mm (± 7 po)

LOW PLANTER

Contains 60 L

Painted galvanized steel tray.
Cast iron painted base.
Stained certified wood hubcaps.
Possible configuration with seats.

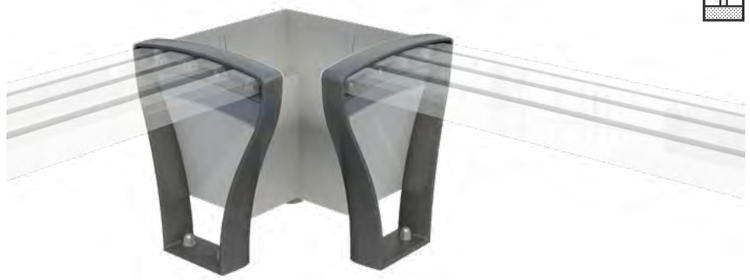
Height : 440 mm (± 17 po)
Lenght : 740 mm (± 29 po)
Width : 365 mm (± 14 po)

CORNER PLANTER or TERMINATION

Contains 40 L

Painted galvanized steel tray.
Metallic cast iron painted base.
Stained certified wood hubcaps.
Possible configuration with seats.

Height : 340 mm (± 13 po)
Lenght : 385 mm (± 15 po)
Width au pied : 188 mm (± 7 po)



FENCE

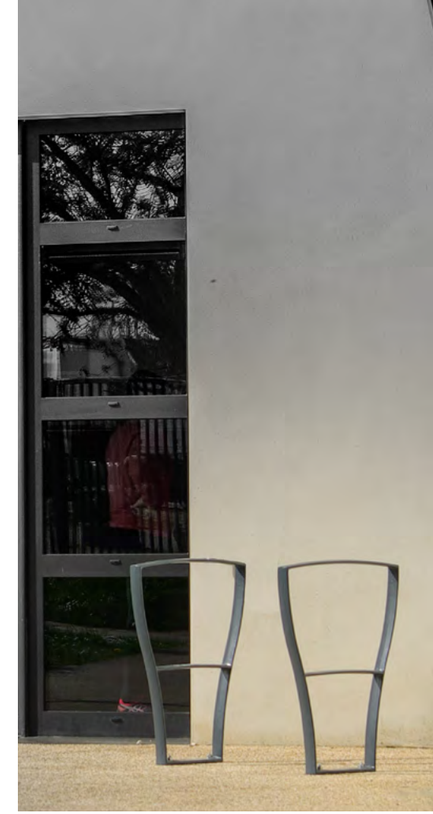
Metallic cast iron and painted galvanized steel.

Height : 1160 mm (± 46 po)
Lenght : 1000 mm (± 39 po)

BIKE RACK

Painted metallic cast iron.

Height : 800 mm (± 31 po)
Lenght : 550 mm (± 22 po)



POST

Fixed or removable-fuse version.
Painted cast iron.

Height : 1100 mm (± 43 po)
Lenght : 120 mm (± 5 po)

Annex

The company, created before 1840, today employs nearly 650 employees in France. **GHM** is located in Champagne and Lorraine and has 4 main factories that transform cast iron, aluminium, bronze and steel. The factories also carries out machining operations, assembly and finishing of our productions.

GHM is first and foremost recognized for its creative force, with a unique manufacturing process. His history is rich in prestigious achievements:

- Wallace Fountains
- Lighting of the Champs-Elysées and the Alexander III bridge
- Guimard metro entrances

Durability

GHM has chosen to produce and offer furniture lines whose wooden elements come only from responsibly and sustainably managed forests. Proof of a respectful approach, obtaining FSC/PEFC labels, internationally approved by major NGOs, is the hallmark of **GHM** commitment. **GHM** has since been inhabited by the concern to imagine and offer durable equipment, and this concern of course involves the choice of materials.

Wood

From certified sources, the woods selected by **GHM** meet the most demanding criteria in terms of hygrometry and dimensional stability.

They are coated with a stain, which is applied according to an approved procedure, protecting them for two years, under normal conditions of use. An anti-graffiti treatment is applied as an option.

Cast iron

The cast iron, made from recycled materials, which is itself completely recyclable, fully meets eco-responsible criterias. In addition, the durability of this material makes it possible to transform cast iron products that have been in service for more than 100 years. Cast iron opens up an infinite choice of shapes and textures. Here are some benefits

- Impact resistance
- Lifetime
- Overload resistance
- Anti-vandalism
- Anti corrosion
- Anti-graffiti
